

Co-funded by
the European Union

Fencomp Oy has been granted a European Regional Development Fund for the period of 09/2023 – 9/2024 (13 months).

The funding will be used to further develop Fencomp Oy's own 5G/6G Over-The-Air Testing (OTA) business area.

The funded project will focus on researching and developing a new product platform based on the international markets research and needs in test and measurement caused by 5G / 6G across the wireless industry.
